

Word Around Town

Better Together Update

Please [click here](#) to watch an important Better Together company update from Bill Geary. The update focuses on how we'll be bringing our systems and processes together. Many of our team members have been hard at work for the last few months during the "Explore" phase of Better Together.

This phase was focused on learning about our existing systems and processes and creating an action plan on how to align them to our future vision. As the "Explore" Phase comes to a close, and we begin to move into the "Testing & Build" phase, we wanted to share with you what we've learned and what to expect.

Happenings Around Town

Microsoft Purview Drop-in Sessions

We're hosting Microsoft Purview drop-in sessions to go over specific scenarios you may encounter, talk through the successes/challenges with Purview and answer your questions. These sessions will be most useful for wave 1 folks who have attended training, but everyone's welcome to join! Drop in during one of the times below:

- Thursday, July 2nd – 9am - 11am CST: [Join here](#)
- Tuesday, July 7th – 9am - 11am CST: [Join here](#)
- Thursday, July 9th – 9am - 11am CST: [Join here](#)

Vote for PTU for the Top 100 Human Resources Team Award!

We're excited to share we've been selected as a finalist for OnConference's Top 100 Human Resources Team Award! The honor is awarded to HR teams that have shown innovation, leadership and have a strong impact across their

organization. Please [click here to vote](#) by Wednesday, July 22nd to support our exceptional People & Culture team!

Reintroducing IntelAgree: Smarter Contract Management

We are excited to reintroduce IntelAgree, our contract lifecycle management platform designed to streamline the way contracts are created, reviewed, negotiated, executed, and managed across the organization. IntelAgree provides a centralized, secure location for contract management while leveraging automation and AI-powered capabilities to improve efficiency and visibility throughout the contract process. [Click here](#) to learn about IntelAgree's capabilities!

Start your Required Annual Training

Don't forget to start your annual compliance training soon. This year, most team members will have 6 courses to complete before Friday, July 31st. Head over to [PT Study Hall](#) to begin!

Update your Shirt Size in Dayforce

To ensure we order the correct shirt size for you in the future, head over to [Dayforce](#) and update as needed. Simply go to [Dayforce](#) → Forms → Shirt Size Form. A quick update now can make sure you get the perfect fit later!

Team Members on the Move

This year we've had **114** internal moves within Parts Town. Are you next? Check out some of our open opportunities below!

Alan Ramirez

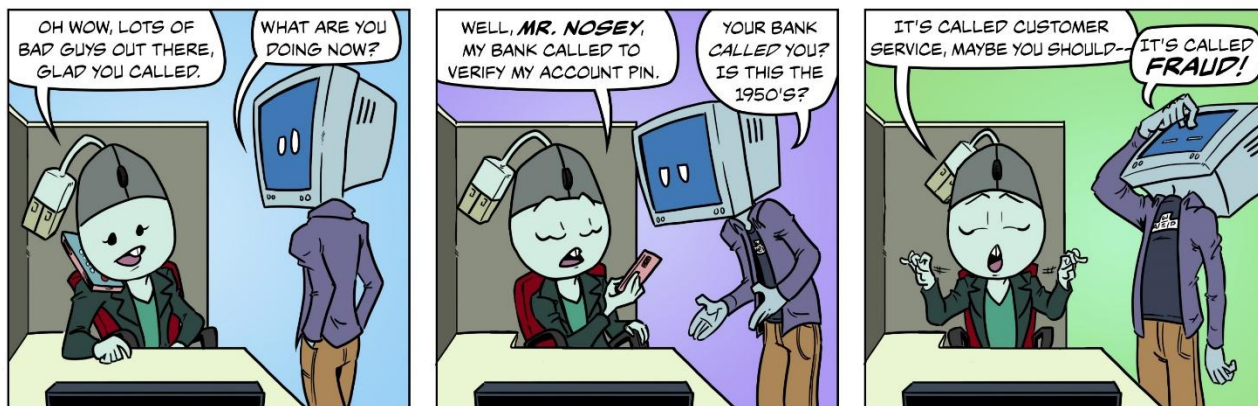

Business Development Specialist, Chains

- Alan has become a key resource for both customers and team-members, especially when supporting Spanish-speaking customers, helping bridge communication, and providing excellent customer service.
- He does a great job staying on top of a demanding workload and continues to find ways to improve his efficiency and effectiveness in his day-to-day responsibilities.
- "Aluhn" is the youngest of the three Ramirez brothers working at Parts Town.
- A big Chicago sports fan, Alan proudly supports the Cubs and Bears and can often be found at Wrigley Field during the summer.
- Alan is a fan of The Office and enjoys celebrating his birthday with the show's classic and simple "IT IS YOUR BIRTHDAY" theme.

IT Reminder – Vishing aka Voice Phishing

On Voice Phishing

- Vishing is short for voice phishing and involves the attacker calling the victim and pretending to be a representative from a trusted source like technical support, banks, even the police.
- Attackers use fraudulent phone numbers, voice altering software, text messages, and other tactics to trick users into giving sensitive information.
- They use urgency, fear, or authority in their tone, and they look to bypass security for financial fraud, identity theft, or access to corporate systems.
- You can avoid vishing attacks by: Keeping information quiet; join the National Do Not Call Registry System, verify unknown numbers, let unknown calls go to voicemail.
- Vishing attacks can happen in Microsoft Teams as well - click on the image for a real-life example.

Internal Career Opportunities

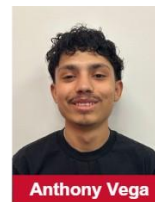

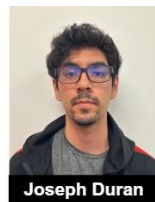

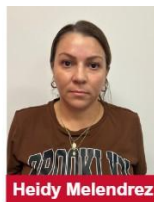

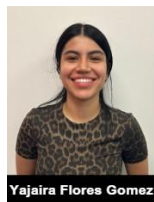

Click on the position for more information or [click here](#) to view all of open opportunities! If you have questions about a role or have trouble accessing our careers page, please reach out to our [Talent team here](#).
